This year all fall sports will be following NJSIAA recommendations by following CDC guidelines and limiting spectators according to an executive order signed by Governor Murphy in an effort to reduce the potential spread of the COVID-19 virus. Given the challenges posed for athletic events during this pandemic, it is essential to share information about the logistics of game management. Each sport and facility are unique presenting its own advantages and potential challenges. However, by proactively sharing the game day plans with coaches, athletes, staff, students, spectators, and schools that are visiting one's campus, we can all work together to manage each event effectively. Ultimately creating a sense of comfort and confidence while focusing on the health and safety of all involved, remain the paramount priority.

Facility rules, limitations, and any other protocols and procedures spectators may need to know can be found on at www.sayrevillek12.net. Under Quick Links, please select Athletics and then click the link *Spectator Guidelines for 2020 Fall Sports*. If you have any other concerns or questions please reach out to the Athletic Department.

GENERAL GUIDELINES

Spectator Limits under Governor Murphy's Executive Orders according to facility size:

500 – Stadium

200 - All High School Grass Fields

100 - Middle School Soccer Complex

As Varsity Football is the only event that may exceed the 500 spectator limit, this event will no longer be a public event. Only spectators with pre-distributed tickets may enter. Each Varsity Football Player, Cheerleader, and Band member will receive a minimum of 2 tickets to be given to family members or close friends. All other football levels and sports will be monitored and closed if the limit is met.

All GMC, NJSIAA, and Sayreville Public Schools spectator rules are in effect for all events on or off campus and posted on the website. Additional CDC guidelines will be enforced:

- Face Coverings that must be worn at all time
- Social Distancing of a minimum of 6 feet in all areas of the facility.
